

Week 4- Preschool	Math	Reading	Writing	Science	Social Studies	Co-Curricular
Activity 1	Shape Detective- Cut out different shape outlines (cut a big shape then cut out the inside of the shape) attach it to a popsicle stick or cardboard and go on a shape hunt throughout your house using the shapes you made as a magnifying glass	Find a book to read. Pick a letter in the alphabet and then as you read count the number of times you see that letter.	Write and draw notes for your teachers and send via Remind	Fill a plastic bag with water, place it in a sunny window. Make observations about the water cycle and how the water rains down.	Sit with your child and explore the photos on your phone or in an album. Talk about the events using such terms like a long time ago, a while ago or yesterday. Encourage your child to recall events that occurred in the pictures. This is an opportunity for your child to work on recall and history.	Make a tent with a blanket: Gather different materials to support the tent and some blankets. Make predictions of what will work best to support the blankets. Discuss what are the most important properties when making a tent. Draw your instructions for building a tent. Now go inside and snuggle up to a good book!
Activity 2	Shape Creatures- Cut out shapes of various sizes from construction paper (or have your child color the shapes if you don't have construction paper) and have them glue to paper to make a shape creature. Talk about the	Name mix up- Ask a family member to mix up the letters of names in your family and see if you can put them back in order. Example- mmoym=mom my	Have the kids write notes on post-it or pieces of paper and slip them under doors at your house and they can pretend they are mailing letters they can write letters on the papers and then they can	Backyard Scavenger Hunt: Find something that smells good. Find 2 sticks. Find a bird. Find 3 different colored rocks. Find a bug.	Have your child talk about their favorite place to visit. Talk about how they might get to the place. How far is it, can you walk or do you have to drive. What city it's located in or what	Follow the leader! Have one person give 3 step directions and see if you can remember the order and what to do! Example-Go to the kitchen, touch the cupboard, and jump up and down 2 times.

	different shapes they are using and their sizes.		read you the note they wrote.		landmarks are close by.	
Activity 3	<p>Math Scavenger Hunt: Find 4 socks and 2 stuffed animals. How many items do you have all together? Find 2 pencils and 1 crayon. How many items do you have? Find 3 spoons, 2 books and 1 marker. How many items do you have all together?</p>	<p>Use the junk mail and scissors to cut out letters. Try to spell your name or names of family members.</p>	<p>Write a daily message board, like we do at Greeting Time. You can do it on paper, chalkboard or a dry-erase board. Read it to your family. Take a picture if you want and send it through the Remind App. or email it to your teachers. They would love to see your work.</p>	<p>Ice and Salt Experiment - fill two trays or cups with the same amount of water and put them in the freezer until completely frozen. Sprinkle salt on one of the ice blocks and not the other. Make some predictions then observe what is happening. There are so many ways to extend this activity. You could have two different ice blocks, one with salt, one without and then measure how much water has melted off after a certain amount of time. You could try different types of salt or change the temperature of the water. If you have it you could add water colors</p>	<p>Have your child talk about what they did yesterday. Talk about different parts of the day.</p>	<p>Coffee filter crafts-cut filter in different shapes (hearts, eggs, eta.) and use watercolors or markers to decorate.</p>

				or food coloring.		
Activity 4	Have a small bag/bowl of a snack (gummies or whatever you have) and place them on the table. Sort them in different groups (i.e. color, size, shape). How many are in each group? How many are there altogether?	Read a story and while you are reading, point to each word as you read.	Write a recipe with your child on his/her favorite food to bake. Have the child draw pictures and help gather the ingredients to bake. Discuss how the child enjoyed being a part of the baking process. Did he/she eat what was baked? Was it good? Was there something that you could have done differently next time (self-reflection) ?	Spring Scavenger Hunt: Find a flower. Find 2 birds. Find a spider web. Find 3 different shaped leaves. Name 2 things you see in the sky. Find something that grows that is green.	Hide and Seek Object - Choose a Toy, not too small, and hide it in different rooms in your house. For an added math activity you can make a chart with all the names of your different rooms on it and have your child make a tally mark next to that room every time they find it there. When you are done count the tally marks and discuss which room it was in the most and least.	Sing The Ants Go Marching as a family. Assign each member a different part. Hold up the number on a paper/card as you sing your part. Change the animal from ants to bunnies, birds, puppies etc... How would they march?
